Hi Emily,

Bethany Christian Services has a client in need of a new refrigerator and stove. This client has been looking for affordable housing, finally found it, but it doesn't have these two items. The client has been shopping around at used items and found some for $200-$300. She still can't afford them and Bethany would like to help with this expense. My question is this: with submission of an RFO, can this be approved if the private seller produces a receipt or under some other condition? Typically I wouldn't even pass this question on to you, but this client is in need of these items and both she and the sub are trying to be wise with the A2A funding available.

Thank you for your help with this!
Carrie
